30 Years Ago

It's a Matter of Time

EDSON STUDIO

The purpose of this page is to keep friends and family up to date on events and share special days across the miles and the World Wide Web. The sites are a good way to help remembering times and experiences from past years, and express warm wishes. This June 21 we honor and remember Sonny. Celebrating the times we all shared in his life.

Million Pieces of Glass

It's been 30 Years Ago that the recording of A Million Pieces of Glass was produced and released. First, on cassettes, then a CD, and finally World Wide Web

Sonny composed the music and wrote these lyrics, not knowing his days were numbered. Though the songs that he wrote tell us that "It's A Matter of Time" and everything can change.

To Sonny
A Friend and Brother

Today, the corner stones of Edson Studio have united, in heart and soul into one spirit. Because, you still dwell in every one of us,
Your presence enlightened our reminiscence.
From school days dreams
To life's challenges and responsibilities
You lit up like a beacon to protect the ones you loved
And leave the better of you.
You showed us how to be strong when we faced uncertainty.
The love you gave, the knowledge you shared is
Cherished by the ones who walked alongside you, on this too short of a path of yours?
Your presence is indelible in the studio.

We will sing together again
We are life...
It's a matter of time

30 years ago, we didn't get the chance to play this song together.
We decided to take the opportunity and play this song with Sonny.
May this humble tribute to you, through one of his song,
Let it be seen as a hand on the shoulder to those who remember.
Best regards
Denis Desilets
